### REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

The prior art of record fails to show or suggest an air handling unit, as specifically called for in the claimed combination of claim 17, whereby at least one of the panels is connected to a side piece by a living hinge such that an edge extrusion of the living hinge is integrally formed with the hinged panel perimeter member (see line 17) and a mounting flange of the living hinge is connected to the side piece of the frame (see line 18). Note applicant's arguments in the paragraph bridging pages 4 and 5 of the arguments accompanying the amendment of April 26, 2004. Also, while the prior art of record, such as Stinson '486, show living hinges, there is no motivation to connect a living hinge to the elements of an air handling unit, in the same way as the claimed recitation noted.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
